---

### Executive Summary:

Results-oriented Software Test Engineer with 4+ years of experience in Manual Testing, Automation Testing, API Testing, and ETL Testing across Healthcare, Telecommunications, and Sports domains. Proficient in Tricentis Tosca, Selenium (Java), Postman, SQL, Azure DevOps, JIRA, and Confluence, with expertise in Functional, Regression, Integration, UAT, and API testing. Experienced in test planning, test case design, defect management, database validation, and production release support. Strong collaborator with a proven ability to deliver high-quality software through effective testing, analytical problem-solving, and Agile methodologies.

### Professional Experience:

**PwC SDC Pvt. Ltd: Aug 2024 - Present**

**Associate 2**

**HCSC Claims Editing**

**2025 - Present**

- Worked as an Automation Test Engineer on the HCSC Claims Editing project, automating healthcare claims adjudication workflows across BCBS plans using Tricentis Tosca.
- Designed, developed, and executed end-to-end, regression, UI, and API test cases to ensure accurate and reliable claims processing.
- Validated 20,000+ healthcare claims through comprehensive manual and automated testing, improving application quality and processing reliability.
- Increased regression test coverage by developing and maintaining automated test suites, reducing manual testing effort and accelerating release cycles.
- Performed API testing using Tosca API Scan and Postman, identifying critical defects early and ensuring compliance with business and regulatory requirements.
- Collaborated closely with Business Analysts, Developers, and Claims SMEs to resolve defects, validate business rules, and deliver high-quality, compliant software on schedule.

**Verizon EDW.**

**2024 - 2025**

- Worked as a Test Engineer on the Verizon EDW project, specializing in ETL Testing, Data Validation, and MFT Configuration Management across SIT and UAT environments.
- Managed end-to-end MFT configuration, monitoring, and troubleshooting, ensuring secure, reliable, and seamless data transfer between upstream and downstream systems.
- Validated ETL pipelines and data integrity using SQL, Teradata, Pelican, Google Cloud Composer (Airflow), and Google Cloud Storage (GCS), ensuring accurate and consistent data processing.
- Monitored and validated Airflow DAG execution, task dependencies, and workflow orchestration, promptly resolving pipeline failures to maintain uninterrupted data delivery.
- Collaborated with Onix, Verizon, and Datamatica teams to resolve issues, improve pipeline reliability, and support timely project delivery, resulting in enhanced data quality and stakeholder confidence.

## **HCL Technologies Pvt. Ltd: March 2022 - Aug 2024**

### **Software Engineer**

#### **Cricket Australia(CA)**

**2022 - 2024**

- Worked as a QA Engineer on the Cricket Australia project, performing Manual Testing, API Testing, and Test Management across SIT, UAT, and Production environments.
- Designed and executed end-to-end test cases, performed API and database validation using SQL, and managed the complete defect lifecycle using JIRA to ensure high-quality software delivery.
- Coordinated build deployments, production sanity testing, and release validation while monitoring application health using Azure Application Insights to ensure stable and successful releases.
- Collaborated with cross-functional teams and clients to conduct UAT demonstrations, resolve defects, maintain project documentation in Confluence, and support seamless production deployments.
- Successfully improved release stability and software quality through comprehensive testing, effective defect management, and production support, contributing to smooth deployments and high customer satisfaction.

#### **Additional Responsibilities:**

- Participated in Agile ceremonies including sprint planning, backlog refinement, daily stand-ups, sprint reviews, and retrospectives to ensure timely and high-quality deliverables.
- Reviewed business requirements, functional specifications, and user stories to identify test scenarios, estimate testing effort, and ensure complete test coverage.
- Supported production releases and post-deployment validation by performing smoke/sanity testing, monitoring application health, analyzing production issues, and coordinating with cross-functional teams to ensure successful deployments.

#### **Achievements:**

- Recognized with Best Fielder award from Cricket Australia for Great Analytical Approach in Quality Analysis of Kondo.
- Recognized with Excellent Performance Award in 2023, 2024 in HCLTech-Cricket Australia Relationship.

#### **Certifications and Technical Skills:**

- Certified in Microsoft Azure Fundamentals by Microsoft.
- Certified in Tricentis Tosca On-Prem Product Consultant by Tricentis.
- Certified in Introduction to Programming Using JavaScript by Microsoft.

#### **Academic Details:**

- **Bachelor of Science in Information Technology** – University of Mumbai, Mumbai | 8.30 CGPI | 2020
- **Intermediate** – R U M V ARRA, Jaunpur, Uttar Pradesh | 69% | 2017
- **Secondary School Certificate (SSC)** – Ma Durga Ji Vidyalaya, Jaunpur, Uttar Pradesh | 7.2 CGPA | 2014

**Hobbies:**

- Playing Cricket
- Listening to podcasts

**Personal details:**

- Date of Birth : 8<sup>th</sup>feb. 1997
- Marital status : UnMarried
- Languages known : Hindi, English, Marathi
- Address : H.no: 1A/2B, Jamuhai, Aanapur Market Jamuahi, Jaunpur dist., 222001.

**Declaration:**

I hereby declare that the information furnished above is true to the best of my knowledge.
